DETAILED ACTION

1. Applicant's affirmed election of Group I invention, claims 1-28, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Therefore, in view of lack of traversal to restriction requirement set forth from Response to Restriction Requirement, the restriction set forth by the examiner is deemed proper and is therefore made Final.
2. In view of Amendment filed July 5, 2005, claims 19-33 have been cancelled, and new claims 34-37 have been added. Claims 1-18, 34-37 are pending.
3. In view of amendment filed, the objection of Claim 11 is withdrawn.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
5. Claims 1-10, 12-18, 34-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Finlayson (US Pat. 4,208,218) in view of Wong et al. (US Pat. 4,830,945) for the reasons adequately set forth from paragraph 12 of non-final office action.

Applicant's arguments filed July 5, 2005 have been fully considered but they are not persuasive. Applicants argue the amendment to claim 1 has changed the product by process claim into a product claim is sufficient to overcome the 103 rejection set forth. The examiner disagrees because claim 1 as written broadly encompasses the comonomers in the prior art. Although applicants argue that the prior fails to suggest the specific type of copolymer recited the present claims, claim 1 broadly encompasses the comonomers in the prior art.

Applicants argue that the composition as claimed composition have an unexpected ability to thicken hydrophobic liquid. However, applicants fail to recognize that "unexpected" nature of the samples must be proved with comparative data by the

Art Unit: 1713

applicants. In view of lack of comparative data, the 103 rejection set forth is proper.

Furthermore, the arguments submitted by applicants are not supported by the claims.

Allowable Subject Matter

6. Claim 11 is allowed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
